INSTRUMENTS The Magazine of MEASUREMENT and CONTROL

Published Monthly by The Instruments Publishing Co., 1117 Wolfendale St., Pittsburgh, Pa.

INDEX TO VOLUME 15—1942

Month	Pages	Month	Pages	Month	Pages	Month	Pages
January—Pt. I	1-32	March	63-94	June	193-242	September	337-394
Pt. II	1-96	April	95-156	July	243-286	October	395-444
Febeuary	33-62	May	157-192	August	287-336	November	445-496
						December	497-552

SOCIETY MEETING NOTICES

Atlanta—356, 444, 494, 548
Baltimore—297, 356, 444, 494, 548
Chicago—1, 62, 94, AS April, 192, 297, 356, 444, 494, 548
Hartford—297, 356, 444, 494, 548
Newark—62, 94, AS April, 192, 297, 356, 444, 494, 548
New York—356, 444, 494, 548
Philadelphia—297, 356, 444, 494, 548
Pittsburgh—1, 62, 94, AS April, 192, 297, 356, 444, 494, 548

SUBJECT INDEX

A

Actuator, Mechanical Reset Action Switch 228
A-c. and D-c. Instruments, Portable 329
Aerial Camera Mount 66
Aeronautic Instruments Classification 216
Air Clamp, Midget 480
Aircraft Accelerometer 72
Aircraft Instrument Mechanics and the War 464
Aircraft Instrument Mechanics Guild 264
Aircraft Instruments, Old and Odd—I 218
Airplane Weighing Scales 379
Airspeed-Pressure Tables 213
Alarm, Photoelectric Smoke 35
Alloys Check-analysis Apparatus 74
American Airlines' Four-year Mechanics' Course 98
Analytical Weights 64
Analyzer, Gas, Industrial 68
Analyzing System, Turbine Governor Performance 35
Aneroid Manometer, for Flow or Liquid Level Instruments 327
Army's Flying Laboratory 138
Army Seeks 100,000 Mechanics to Meet Immediate Needs 446
Attenuator-calibrator for C-r. Oscillograph 434

B

Balance, Analytical 278
Balancing Machine, Bench Type Dynamic 430
Balancing Machine for Mass Production Uses 530
Balancing-machine, 1-oz. to 50-ton Range 327
Ballast, Enclosed, for Aircraft Panel Fluorescent Lighting 534
Bell Telephone Laboratories' Central Instrument Loan System 338
Brain Twister 374
Bridge, Conductivity, Expanded Range 149
Bridge, Kelvin Wheatstone 478
Bridge, Limit, Capacitor and Resistor Production Testing 284
Bridge, Limit, for Production-line Resistance Tests 336
Bridge, Limit, for Production-line Resistance Tests 386
Bridge, Percent Limit, Rapid Production Measurements 151
Bridge, Percent Limit 483
Bridge, Wheatstone 478
Bridge, Wide-range 69
Bubbler, Sight Feed 279
Buret Set, pH Tests 257

C

Cabinet, Constant-temperature 43
Calibrating Pressure-actuated Instruments by Means of Graphs 424
Calibration of Sound-level Meters 92
Capacitor, Decade 158
Capacitor Mountings 152
Capacitors, Oil-filled Plug-in 40
Capacitors, Oil, High-voltage Heavy-duty 233
Capacitors, U-h-f, Transmitting 164
Cartridge for Seismographic Method of Prospecting 144
Centrifuge to Test Pilots' Reactions to Acceleration 538
Characteristics and Aircraft Applications of Wire Resistance Strain Gages 112
Characteristics of Hydraulic and Pneumatic Relays as Energy-converting Devices 340
Chemical Proportioner 386
Circuit Breaker, Aircraft, with Trip Indication 236
Clock, Contact-making 482
Coil Testing Equipment 234
Cold Chambers, Industrial 229
Colorimeter, Continuous-flow 475
Colorimeter, Portable Photoelectric 67
Comparator, Amplifying 40
Comparator, Toolroom or Production Line 164
Comparator Gage, Visual Indicator 535
Concentricity Checking Machine for Airplane Rocker Arm Bearings 104
Condensate Return System, High-pressure 40
Condensate Sampler for Conductivimetric Checkup 235
Conductivity Bridge with Expanded Range 149
Constant-Temperature Baths 233
Contactor, Dynamotor 146
Control for Stockrooms, Inventories, etc., by means of Special Weighing Devices 47
Control, Aircraft De-icer 379
Control, "Strap-on" Limit 43
Control System for Super-heated Steam Temperature 147
Controller, Automatic, for Extreme-lag Processes 272
Controller, High-pressure Liquid Level 40
Controller, Non-indicating 231
Controller, Registration 384
Controllers, Self-operating Temperature 228
Controller, Signal Lights 376
Controller, Signalling, Automatic Condensate-purity 66
Controller, Temperature 377
Controller, Time Schedule 159
Controller, Weld Cooling Time-temperature 236
Control Unit, Mercurial Type High-amplification 284
Control Unit, Remote Valve 64
Counter, Electric Predetermined 142
Counter, Operation, for Protector Tubes 482

D

Daylight Lamp for Colorimetry 275
D-c. Cable-fault Reduction and Localization Set 436
Decade Inductances 144
Densitometer, Photoelectric 328
De-Port Space-Time Recorder 313
Detector for Under-surface Flaws in Steel 486
Detector Speeds Tube Production 546
Detonation Instruments, Auto and Aircraft 165
Detonation Measuring Apparatus, Engine Knock 477
Dew-point Indicator Guards Heat Treatment of War Production Components 545
Direct Determination of Coefficients for Flow Meters 196
Drawing Instruments 237
Dynamic Unbalance—Its Cause, Effects and Correction 357
Dynamometer, Drawbar, for Aircraft Control Cables 474
Dynamometer, Shunt and Traction 34

E

Education and Training 22; High-school System Fails to Train Youths for Industry 22; Instrument Engineers Who Know Processes are Needed 22; Plea for Maintenance of Training Standards 22; Instrument Courses Mark Coming of New Era 22; War-time Advertising Should Be Instructive 23; Sources of Information for Instrument Dep't Personnel 24; Instrumentation in the Engineering College Laboratory 24; Pratt Institute's Instrumentation Courses 24; Instrumentation—One of the Pillars of Engineering 24; Some Specific Needs of Technological Libraries 25
Electrical Aircraft Instruments 466
Electrical Analyzer for Aircraft 208
Electrical Instruments, Portable 383
Electrical Instrument Service Kinks 528
An Electrical Instrument Test Panel 526
Electron Tubes, External-grid control Industrial 432

F

Facts and Figures on Students 472
Ferrule Resistors 384
Filtration Apparatus, High-speed 482
Flight Recorder 144
Float-operated Instruments 38
Flow Bench Testing of Stromberg Injection Carburetors 316
Flow Meter, High-pressure 284
Flow of Liquids in the Critical Region 197
Fluorescent-fixture Design Aided by Unique Photometer 442
Fluorophotometer 274
Fractionating Equipment, Low-temperature 533
Functions of the TWA Instrument Department 102

G

Gage Comparator 382
Gage, Diameter and Roundness 279
Gage, Diameter and Roundness of Spinning Rings 278
Gage, Distance, Crankshaft Bearing Face 280
Gage Handles, Plastic 434
Gage, High-vacuum 377
Gage, Inside Diameter, for Shallow Holes and Recesses 277
Gage, Multi-purpose Shop 376
Gage, Pitch Diameter 68
Gages, Pressure 332
Gage, Screw and Round-stock 73
Gages, Shell Concentricity 64
Gages, Shell Diameter 67
Gage, Strain, Sudden Loads 145
Gage, Wall Thickness, for Demolition Bombs 72
Galvanometers, Mirror 73
Galvanometers, "Pointerlite" 36
Galvanometer Shunts 40
Gages, Adjustable Limit Snap 34
Gas Analyzer, Industrial 68
Generator, L-f, Linear Time-base 162
Generator, Vibration 34
"Glasohm", Glass-insulated Flexible Heating Element 534
Glider Instrumentation 312
Glossmeter 232
Government and Delta Give an Intensive Course for Aircraft Instrument Mechanics 100
A Graduate of the N.Y.S. of A.I. Writes About His Training 488
Gravitometer, Small Volumes 282
Grille Jet, Intake or Exhaust 34
Grounded but Fully Animated Airplane for Checking and Demonstrating Instruments 211
Guide Vanes for the Cup Anemometer 108
Gyros' Unknown Heroes 470

H

Hair-spring Straightening Simplified 441
Help Spot a Sub! 285
High-altitude Test and Calibration Equipment 125
How a Great Airline Keeps its Vital Aircraft Instruments Clean 122
How to Drill 'em Smooth and Round—Shop Kinks 528

I

Importance of Aircraft Instrument Mechanics in War and Peace 263
Importance of Electrical Aircraft Instruments in War and Peace 463
An Improved Manometer Built of Plastics 524
Improved Penn State Smokemeter 346
Indicator, Circuit-break 163
Indicator, Dial Test 148
Indicator, Electric Remote Speed 273
Indicator, Level 43
Indicator, Stability 166
Indicators and Recorders, Smoke Density 229
Industrial Tubes 156
Ingeniously Assembled Tester 121
Installing and Operating the Gas Analyzer 168
Instrument Company Trends 26; Permanent Improvement in Men, Methods and Materials Is Reported 26; Instrumentation in Mass Production Is Announced 26; Automatic Combustion Control for Sea-going Vessels Announced 26; Company Makes Start On Standardization of Instruments 28; Gas Specific Gravity Meter Makes Heat-treating Furnace Safe 28; Radio Telemetering System Is Announced 30; Geophysical Instruments and the Critical Minerals 30; Magnetic Analysis Inspection of Bar Stock and Tubing 30; Imported Instruments Surpassed by Ones Made in U.S.A. 32
Instrument Education and Training 90
Instrument Flight—The Romber Pilot Speaks 267
Instrument Overhaul Charges 374
An Instrument Panel for Combustion Tests of Domestic Fuel-burning Equipment 118
The Instrument Technician, His Growing Importance in All Divisions of Aviation 521
Instrumentation Course at Pitt 60
Instrumentation in General with Emphasis on Its Foundations—Research Laboratories Are a Necessity, Not a Luxury 2; Gives Examples of Instrumentation Benefits 2; Instrumentation's Level of Precision Rises; Its Areas Widen 2; "After This War We Have a Big Job to Do" 2; Four Youthful Offsprings of Science Provide New Testing Methods 3; Discovery and Instrumentation are Co-partners in Scientific Progress 3; Optical Institute Is Suggested and Its Functions Listed 4; Institute for Instrument Research Is Outlined 4
Intensive Training Relieves Critical Bottleneck of Aircraft Instrument Overhaul 266

L

Lamps, Portable Ultraviolet 383
Lapping Plate, Precision 376
Lens, Automatic-focus 71
Light Control 230
Liquid Flow Through Pipe Assumes Five Different Forms 198

M

Magnifiers, Illuminated 378
Maintenance and Servicing of Electrical Instruments 48, 128, 176, 199, 248
Manometer, "Eight-in-one" 130
Martin Endows U.A.S. Research 270
Mass Training of Instrument Mechanics to Meet War Needs 428
Measurement and Control Features of World's Outstanding Pipe Line 288
Measurement and Control of Flow Rate May Be Advanced by Discovery of Liquid Flow Types 197
Measuring Anvil, Ball-shaped 382
Measuring the Coulomb and Viscous Components of Friction 404
Measuring the Elastic Airplane 96
Meter, Elapsed Time 68
Meters, Photoelectric Reflection 380
Meter, Recording Viscosimeter and Specific Gravity 34
Meter, Switchboard Watthour 148, 436
Methods and Equipment for the Inspection of Machine Gun Parts and Assemblies 510
Metrology, The Science of Measurements 500
Microfilm Reader 230
Microphotometer 38
Miniature Panel Instruments 236
Motorelay 476
Multi-tester 536
Multitester, "Electronic" 31

N

The Navy Needs Men! 146
Need of Complete Instrument Service Manuals 267
New High-power Testing Facilities 57
New Mercury Rheostatic Method 36
New Method of Measuring Mechanical Vibrations 83

O

On the Language of Instrumentation 208
Optical Lens Tissues 67
Ordnance Production Gaging 211, 292, 352, 412, 514
Oscillograph, Direct-Writing 42
Oscillograph, General-purpose 5"-9" 138
Oscillograph, Giant-screen 74
Oscillograph Pre-amplifier 435
Oscilloscope, Cathode-ray 476
Oscilloscope, Magnetic 42
Oven, Constant-temperature 70
Overhaul Procedure—Pendulum Assembly of Horizon and Bank & Climb Unit 523

P

Panels, Electrical Testing 272
Pen Cleaner—Shop Kink 547
Photocell-controlled Dynamometer Loader 194
Photoelectric Scanner 72
Photoelectric Systems, Anti-sabotage and Blackout 160
Photometer, Electronic 331
Pitfalls of Temperature Measurement 498
Pivot Repairing 441
Plumb Bob, Precision 278
Power Packages for Aircraft Subassemblies 533
Power Unit for Automatic Control Systems 273
A Practical A-c. Bridge Construction 297
A Precision Autographic Data-plotting Method 116
Precision Test Equipment Required for Aviation Instrumentation 268
"Profilometer" Power Pack 142
Protection System, Photoelectric 232
Protector for Current Transformers 332
Protector, Watthour Meter 70
Pump, Metal Booster, for Vacuum Applications 158
Put Idle Instruments to Work 396, 458
Pyrheliometer 37
Pyrometer, Radiation 228

R

Recorder, CO 37
Recorder, Drying Time 274
Recorder, Multi-point pH 146
Recorder-controller, Flow-rate 161

Recorder, Optically-balanced Phototube-relay, High Speed 484
Recording System, Flexible, with Interchangeable Units 143
Refrigerated Cabinets 385
Refrigerators, "Cold Treater" 163
Regulator, Automatic Oxygen 232
Regulator, Feeder Voltage—Air-cooled Indoor Model 283
Relays, Aircraft Type 234
Relay, Dust-tight, for Aircraft Applications 530
Relay, Electrical Reset, Mechanical Latch-in 149
Relay, Latching 431
Relay, Light-weight Aircraft 150
Relay, Mercury Plunger 64
Relay, Midget 36
Relays, Midget Metal-base 481
Relay, Photoelectric, for Sounding Blackout Alarm 238
Relay, "Snap-Action" 37
Relay, "Start-Stop" 71
Relay, Vibration-proof, for Milliamps at Microvolts 160
Relay, Vibration-resistant 39
Repair or Replacement of Old Electrical Instruments—Some Influencing Factors 173
Reports, Recommendations, Etc.: A Live Policy for an Instrument Department 14; Lithographic Industry Becomes Instrument-conscious 14; Adopting Quality-test Noise Meter Brings Amazing Results 14; "Reading Eyes" for the Blind 14; From One who Serves Utility's Customers in Mountains 15; Cites Hospitals as Automatization's Beneficiaries 15; Engineering Educator Discusses Three New Trends 16; A Plan for Planning What to Do First 17
Resistor, Helical Slide-wire Adjustable 152
Resistors, Non-wire wound 384
Resistors, Strip 480
Rheostat Cages 41
Rheostats, Field 430
Rheostats, Four-inch 530
Rheostat, 50-watt Power 329
Rheostat, Potentiometer 276
Rheostats, Shatter-Proof 43
Rheostat, 25-watt Armored 38
The Right Man for The Right Job 446

S

Sag Measurement by Means of a Stop Watch 88
Screwdrivers, Shop Kink 268
Screw Sizes, Shop Note 268
Selection and Installation of Flow Meters 75
Selection and Proper Use of Cleansing Materials for Aircraft Instruments 374
Severe Test of a Water-tight Case 547
Shunt, Ayrton, Galvanometer 430
Signalling Controllers, Air Raid 275
Signalling Controller, Automatic Condensate-purity 66
Simple Pressure Regulators, Principal Types and Their Characteristics 44
A Simple Tension Jig for Testing Single-riveted and Spot-welded Sheet Specimens 212
Six-month Intensive Course Trains Civilians in Army & Navy Aircraft Instrument Repair 368
Skill Training for Aircraft Instrument Technicians 419
Slide, Calculator and Reference for Shop and Drafting-room 485
Sodium Light for Microscopic Flaw Detection 486
Some Pot Shots at This Relative Thing Called "PRECISION" 506
Space-Time Recorders in Airplane Landing Gear Testing Laboratories 310
Specific Ideas: Suggests We Start an Instrument Loan & Exchange Dep't 9; "Controllability" of Processes Can Be Compared 9; Uses of Recorders, &c. in Plant Making Conveying Equipment 9; Radiation Pyrometers Guard Refractories, Boost Production 9; Quick Installation of Tube Thermocouples in Cracking Still 10; Mechanization of Bulk Density Test 10; Versatile Automatic Gaging Fixtures are Needed 10; Continuous Electrical Gages for Sheet and Strip Materials 10
Specific Predictions: Extensive Use of Radio Circuit Instruments Foreseen 18; Instruments and the Progress of Aviation 18; Radio Circuit Instruments Will Solve Industry's Post-war Problems 18; Radical Improvements in Aircraft Instruments and Controls Foreseen 18; Six Probable Trends in Design of Instrumentation Products 19; Extensive Use of New "X-Y" Recorders Foreseen 20; Re Future of Flowmeter Types: "Float" Will Rise and "Head" Will Drop 20; Electrical Instruments Yesterday, Today and Tomorrow 20; No Major Changes in Instruments for Months 21; Needs and Trends of Chemical Industry Instrumentation 21
Spectrometer, Mass, Gas Analysis 65
Spectrophotometer, Universal 162
Statistical Predictions 372
Steel Furnace Instrumentation with Special Reference to Soaking-pit and Open-hearth 167
Stands, Pressure-test 280
The Stem Lag of Industrial Thermometers 449
Stereoscope, Folding Pocket 236
"Stratosphere Chambers" 169, 237, 431, 437, 474
Substitutes for Strategic and Critical Materials 447
Switch, Mercury 43
Switch, Multicircuit Aircraft Service 327
Switch, Photoelectric Blackout Illumination 68
Switch, Time 380
System Frequency and Its Control 290

T

Tachometer and Synchroscope Dual Combination 328
Telemetering System, Pneumatic Differential 148
Test Machine, Impact, Enamelware 382
Test Set, Insulation 69
Tester, Compression Spring 479
Tester, Ductility 42
Tester, Dynamic 145
Tester, Exhaust Gas, for Engine Test Stands 146
Tester, Insulation and Breakdown 231
Tester, Insulation Resistance 151
Tester, Multi-Range 158
Tester, Plastic Thickness 381
Testers, Tensile 535
Tester, Voltage Breakdown 328
Tester, Wood Moisture 332
Testing Set, Oil and Insulation 434
Testing Units, Spark Plug 386
Thermometer, Industrial 166
Thermometric Lag Determination for Cylindrical Primary Elements 398
Thermometric Sticks, Fusion-method 142
Thermoscopic Paint 475
Thermostat, Duplex 479
Thermostats, Explosion-proof 483
Thermostat, Heavy-duty 277
Thermostats, Mercury-in-glass 165
Thermostat, Outdoor-temperature-compensated 384
Thermostat, Surface 39
Thermoswitch, Coupling Head 377
Thomas, Arthur H. (obit.) 351
Timer, Automatic or Manual 274
Timer, Continuous-repeat or Single-cycle 330
Timer and Lamp Simplify Operation 486
Timer, "Cycle-progress" 481
Timers, Electronic 433
Timers, Explosion-proof 331
Timer, Instantaneous Reset 276
Timer, Repeating Cycle 142
Timer, "Vernier-set" 381
Torsion Machine, Wire 147
Tracer, Surface-finish 158
Training Military and Civilian Personnel as Aircraft Instrument Technicians 522
Transformer, Split-core Current 66
Transformers, Three-phase to Single-phase 485
Transmitter, Low-pressure Flow 484
Tubing, Low Temperature Insulation 70
Twelve-point Recorder Facilitates Analyses of Heat Treatment Processes 106
Type Switch, Air Cofps 152

U

Untangling Hairspring—Shop Kink 528

V

Vacuum Pickup for Abrasion Tester 230
Valves, D-c Motor-operated 438
Valve, Manifold Solenoid-operated for Aircraft Tests 238
Valve, Motorized 278
Valves, Three-way Magnetic 378
Vibrating Table 231
Vibration Test Stand 272
Viscosimeter, Recording 34
Voltage Dividers, Decade 159
Voltage Regulator 42
Voltage Regulator with Inverse-time Relay 40
Voltmeter, Crest, Ignition and Corona Voltages 532
Voltmeter, Vacuum-tube 70, 274
Volt-ohm-milliammeter 385

"..IN-RES-CO resistors for high accuracy"

★ The increasing importance of IN-RES-CO resistors in critical ordnance applications, substantiates the great responsibility placed on their proper functioning at all times. Leading engineers emphasize the fact that "a job is being done by IN-RES-CO units where a high degree of accuracy must be maintained.

Write today for illustrated literature describing the complete IN-RES-CO line of specialized resistors—each application designed for a specific requirement.

TYPE DB (at top), 1 Watt, Non-inductive, Standard tolerance ½%. Maximum resistance 1 megohm, Size 11/16" diam. x 13/16" high.

TYPE DL (bottom), 1 Watt, Non-inductive, Standard tolerance ½%. Maximum resistance 1 Megohm, Size ⅛" diam. x ¾" high.
